

SKATING NOW IN ORDER.

COMPLETE ARRANGEMENTS MADE FOR THE CHAMPIONSHIPS.

Orange Lake, near Newburgh, N. Y., selected for the tournament. Joe Donoghue and John S. Johnson met last night and arranged for the tournament. The event is expected to be a success.

The advent of King Frost finds the officials of the National Amateur Skating Association on the alert with the programme for the annual championships already prepared. Warned by their adverse experiences of the past two winters, they have taken time by the forelock and fixed Saturday, Jan. 19, as the date of the big tournament.

The venue selected is Orange Lake, near Newburgh, N. Y., and the choice meets with general approval for many reasons. The lake is very accessible by electric railway running direct from the Newburgh depot. The surface admits of a fine course, half a mile in circuit, and a full view of the sport may be had from the windows and balconies of an adjoining hotel. The district is prolific in veteran skaters, timers, and other officials, and every pond in the neighborhood has been building champion eager for such a rare opportunity of scoring glory.

Secretary Gus C. Walton visited the scene on Tuesday last and found the local magnates in a generous frame of mind. They guarantee to have all preliminaries in shipshape order and every precaution taken to meet any emergency with the exception of the weather. The latter contingency is considered too remote to cut any figure, as the mercury seldom makes any upward break until the summer border is almost due.

The course will be roped off all round and trespassers will be kept within bounds by the police. A sudden fall of snow at the eleventh hour has no terrors for the local promoters, as they can call on the entire staff of the electric road to keep the ice clear and fit for racing. The trolley company will furnish the medals and for the other incidental details, leaving the association in the enviable position of having nothing but official badges to provide out of the entrance fees.

The programme for the championship includes races at 440 yards, one mile, five miles, and ten miles. None of these events came off last winter owing to the weather. The programme is as follows: N. J. in the '93 series at Red Bank, Howard Mosher of Storm King, N. Y., won the 440-yard event, and he is training hard to retain his title. He is having all the racing needed to get him in good shape. He has a lively experience with Jim Donoghue last Tuesday on the subject of a \$2,000 medal. The distance chosen was 220 yards, to be covered three times. Jim Donoghue took two heats out of the three and the medal, but Mosher held when leading in one heat, and the pair will meet again under the same conditions on New Year's Day.

Other entries expected for the 440-yard championship are Jim Donoghue, who won the title last year, N. Y. C. Clark, Storm King, N. Y.; W. G. Douglas, New York; C. S. N. Phillips, New York; and C. S. N. Phillips, New York. The New York and New York entries are expected to be a close race. The New York and New York entries are expected to be a close race. The New York and New York entries are expected to be a close race.

The five and ten mile races will find Johnson and Joe Donoghue as the main contenders. Both titles, and will not let them go without a supreme effort, while Donoghue is equally determined to get the laurels back. The reputation of the younger element is expected to be a close race. The New York and New York entries are expected to be a close race. The New York and New York entries are expected to be a close race.

Football rule makers. A new committee to be appointed, to be Alexander Moffat. In all probability there will be a new Football Rules Committee appointed within the next three weeks, which will consider all of the proposed reforms. The old committee, consisting of Walter Camp, W. A. Brooks, Jr., Alexander Moffat, John C. Hays, and F. J. Dashiell, has gone out of office recently, according to Mr. Moffat, and a new body cannot meet before the matter has been considered by the Advisory Committee of the Intercollegiate Football Association.

At the association consists of only Yale and Princeton. The Advisory Committee is composed of two graduates of Harvard and Yale, and Alexander Moffat of Princeton. According to the constitution of the Intercollegiate Association, the Advisory Committee is compelled to meet annually on the first Saturday in March, but it is also authorized to meet at any other time. The committee is expected to meet on the first Saturday in March, but it is also authorized to meet at any other time.

Mr. Moffat said, in answer to a question yesterday, that the Intercollegiate Association would probably reject a proposal to allow a player to be reinstated after having been suspended for a year. The proposal was made by the Intercollegiate Association, but it is expected to be rejected.

TALK OF A \$10,000 TROPHY.

New York A. C. Men Discuss the Proposed Invasion of English Athletics.

The probabilities of an international athletic tournament are furnishing New York A. C. men with a subject for discussion. The latest fact appeared in THE SUN of Dec. 25. When the club decided to challenge the London A. C., with the option of mobilizing all England. If necessary, no reply was expected for some weeks, and Secretary Herbert's letter to E. C. Chairman B. C. Williams of the N. Y. A. C. Athletic Committee says no further official action can be taken until a reply is received direct from the London A. C. Should the contest develop from a club match into a representative international struggle, as seems probable, he thinks the two clubs promoting the affair should go halves in a \$10,000 cup, or other suitable trophy, emblematic of the world's championship. If victory went to the visitors, they would be entitled to carry off the trophy and the club which had been defeated would be required to replace it. This arrangement would insure an international tournament whenever the non-holders of the trophy were invited to England, and the affair might resolve itself in time into an annual feature of the first importance.

The championship trophy, which is now in the hands of the London A. C., is a silver cup, and is known as the "London Cup." It is a very valuable trophy, and is highly prized by the London A. C. men.
